

Research Interest

My research focuses on **privacy-preserving AI** and **agentic AI alignment**. Particularly, I am interested in: Understanding real-world privacy challenges in human-AI interaction; Developing technical alignment mechanisms that ensure autonomous agents act as reliable privacy fiduciaries, grounding agentic behavior in robust, ethically-aligned constraints.

Education

Northeastern University <i>Ph.D. in Computer Science</i>	2025 - 2030 (Expected)
University of California, Los Angeles (UCLA) <i>M.S. in Electrical and Computer Engineering (Thesis Track)</i>	2023 - 2025
University of Electronic Science and Technology of China (UESTC) <i>Joint B.E.(Honours) in Electronic Information Engineering</i>	2019 - 2023
University of Glasgow (UoG) <i>Joint B.E.(Honours) in Electronics and Electrical Engineering</i>	2019 - 2023
